Eye Donor Referrals

All deaths that have occurred in the past 24 hours where the body has been cooled in that time period may be referred to the eye bank. In cases where tissue donation will not occur, you may still call in an eye donor referral.

Help GIVE the gift of sight!

Give Saving Sight’s 24/7 referral line a call: 1-800-331-2636.

Initial eligibility is determined during the call and includes cases ages 2-75 where cooling occurred within 12 hours of death; no HIV, Hep B or C or active IVDA.

Vitreous will be drawn by our staff and provided to you. We can also take and provide photos, per your request.

Expect a follow up on donation outcomes from Saving Sight.

Eye Donor Preparation

When you have a potential donor, please perform SEE as soon as possible.

- **S**aline drops in each eye.
- **E**levate the head to 30 degrees.
- **E**yelids closed. Do not tape eyelids.

Thank you for helping us act on each donor’s wish, allowing us to restore sight to 7 individuals each day.
